EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Change the title of the invention to, **Connector With Lock Piece That Longitudinally Deforms.**

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record either alone or in combination discloses the combination in the independent claims specifically the lock piece that deforms longitudinally becoming shorter when a compressive force from the terminal fitting compresses the lock.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. None of the art listed in the attached PTO-892 teach a lock

piece that becomes shorter when experiencing a compressive force from a terminal fitting. Some of the art cannot be used as prior art because of the priority date.

Also, some of the art is from the same assignee.
